■ ISL Institute of Shipping Economics and Logistics

The ISL - Institute of Shipping Economics and Logistics founded in Bremen in 1954 combines tradition with modern science; we have since positioned ourselves as one of Europe's leading institutes in the area of maritime logistics research, consulting and knowledge transfer. On behalf of our project partners from the public and private sector, both on national and international level, we ensure that innovative ideas become solutions with practical applicability. At our offices in Bremen and Bremerhaven, we handle projects from all over the world in interdisciplinary teams.

■ ISL InfoLine / Webshop

The ISL InfoLine is your resource of up-to-date market information and completes ISL's service spectrum with numerous proprietary publications, which are available in the online portal. The key publications are the ISL Shipping Statistics and Market Review (SSMR), the ISL Shipping Statistics Yearbook (SSYB) and the ISL Monthly Container Port Monitor (MCPM).

Furthermore, the portal of the ISL InfoLine offers various databases used for market analyses, statistical publications, information services and customers' enquiries. The focus here is on the ISL Port Database.

■ ISL InfoCenter / Library / SEABASE

The ISL InfoCenter is the leading institution in Europe for information and documentation in maritime economics and logistics. It offers professional services about industries, markets and companies within the knowledge areas of shipping, shipbuilding and ports, transport and logistics as well as economic and trade.

The ISL Library, which exists since 1954, is one of the biggest libraries in the area of maritime economics and logistics with a total stock of about 128,000 books (January 2017), of which are 32,000 monographs and 32,000 annual publications. A quarterly list of new acquisitions is created, documenting the growth of the ISL Library. Furthermore 180 professional journals are kept regularly. In addition, digital publications within the creation of an eLibrary play an increasingly important role. The ISL Library is open to the public and the use is free of charge

ISL SEABASE functions both as a catalog of the ISL Library as well as a literature database. The catalog represents round about 127,000 bibliographic records (January 2017) of the ISL Library and is an important knowledge source for maritime industry as well as research and education. ISL SEABASE research offers a systematic access to current maritime and logistic knowledge. Besides reference books also market studies, research and conference reports, economy statistics as well as business and annual reports are included. Contributions from about 180 national and international professional journals are evaluated selectively after relevance.
