▶ New ISL Publication – ISL Shipping Statistics Yearbook 2018

The shipping industry needs various information to evaluate market dynamics. The conceptual approach of the ISL SHIPPING STATISTICS YEARBOOK which goes back to the year 1986 is designed to inform on developments in shipping, world trade, seaborne trade, commodity markets, ocean freight and charter rates, individual profiles of shipping and shipbuilding countries, as well as on world port developments. ISL provides the yearbook for many years as a source for market analysis.

The various development indicators are presented within three main sections:

- The Shipping Market
- Shipbuilding
- Ports and Sea Canals

Moreover the Yearbook comprises an indepth analytical comment.

The ISL Yearbook is a unique, worldwide distributed statistical source and designed to particularly meet the requirements of shipowners, shipbuilders/repairers, port authorities, brokers, banks, transportation consultants, universities and research institutes.
